

WorkShop Commenced at 1:30pm.

The meeting for the month of October was postponed in favour of a workshop.

The workshop was an informal gathering of people and robots, in preparation of the final year competition.

There were about 10-15 people there, which was good to see. Peoples robots are taking shape, however still need quite a bit of work before the competition.

It has been proposed to hold another workshop on the weekend of the 14th November.

There is to be a normal meeting (committee and presentation) at the start of November.

Next Meeting

Saturday, 3rd November, 7:30pm.

Committee meeting : Competition buildup.

Standard club meeting : Aaron Dwyer to present 'Midnight Stallion'.

Meeting Ended at 4:30pm.
